

# Questions to Speakers for the Round Table Discussion

## AL5Gplus Workshop

- ▶ What is the major challenge / lock / concern for multi-party (and dynamic) liability management for 2030? And why?
- ▶ Who has to manage liability between parties?  
*Insurance / private companies / states ... ?*
- ▶ The role and challenges of certification in future networks? E.g., cost-gain perspective
- ▶ Are mobile operators treated fairly and appropriately for liability? The right mechanisms in place for accountability?
- ▶ Rise of the machines? AI liability?
- ▶ What would be the nice-to-have thing for multi-party liability?  
*(wish list -> dream, not necessarily connected to reality)*
